

Our partner school:

The "BUNDESGYMNASIUM und BUNDESREALGYMNASIUM Wien 21" is a secondary school for pupils aged from 10 to 18 years. It is situated in the 21st district of Vienna, close to the river Danube.

Our school was founded in 1900 and was the first public grammar school in Floridsdorf. Currently 950 students attend school and are coached by 95 teachers. Students in our school can choose between "Gymnasium" (with French, Latin or Ancient Greek) or "Realgymnasium" (with additional courses in Mathematics and Geometry).

We are known for high standards in IT and Sports (esp. Swimming, Volleyball and Basketball). We also set a focus on business, career planning and social projects. We cooperate with the University of Vienna and the "Fachhochschule Technikum Wien".

A lot of our pupils have a multicultural background and we benefit from the influence of these different cultures. We also have a long tradition in international partnerships. Our partners are situated in France, Bosnia-Herzegovina and the Ukraine.

Austrian students presenting themselves in this video:
